Full report unlocks

Competitive breakdown, source-by-source detail, example AI citations, and export-ready sections for

Example insight summary

The free snapshot answers the first question: does the brand appear in AI recommendations for the selected intent?

The paid report goes deeper: who captures recommendation share, where competitors dominate, and how models phrase the comparison.

This PDF is a lightweight preview for the landing page. The live product view contains dynamic data tied to the submitted brand and market.

Sections typically included

- Overview
- AI share of voice
